

East Central Florida SKYWARN Training National Weather Service Melbourne, FL

*Serving Brevard, Indian River, Lake, Martin, St. Lucie,
Seminole, Okeechobee, Orange, Osceola and Volusia Counties.*

The following schedule reflects the dates, times and locations of upcoming SKYWARN spotter talks. This schedule will be modified regularly as new talks are added. Most of the talks are open to the public and they are encouraged to attend (see exceptions below). The presentations generally last two hours and are free. A National Weather Service meteorologist will discuss various aspects of severe weather, storm spotting, and severe weather safety. Please direct any questions about SKYWARN training classes within [east central Florida](#) to scott.spratt@noaa.gov
